

What is Love INC?

Love in the Name of Christ is a ministry outreach that partners with local churches, volunteers, community organizations and agencies to help people in need. Through Love INC, churches and individual Christians come together across denominational lines to provide help to those facing a life dilemma or with an immediate need such as food, clothing, mortgage and utility assistance or another emergent necessity.

How Does Love INC work?

Request for Help

- The person in need is referred to Love INC by a network church or an agency.

Analyze and Verify

- Love INC then assesses the extent of the need and determines the legitimacy of the request.

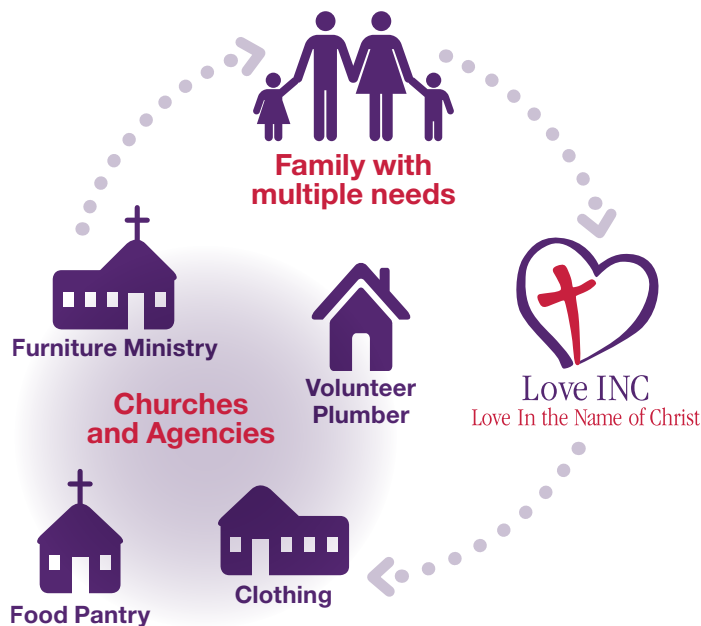

Connecting Resources

- Love INC connects resources to the need through its extensive list of agencies, network of church members and its own support services.

Follow-up

- Love INC follows-up with the individual to assure the needs were met.
- Love INC also updates the referring church detailing how the needs were met and ensuring the church connects with the individual to address spiritual needs.

"Because of the outreach through Love INC and the partnership we have, we are able to meet a lot more needs...and are able to reach more for the Harvest of Jesus Christ"

Pastor David Pratt,
West 58th Street Church of God

"After being helped by Love INC, I see the people coming into the congregation with a smile on their face and victory in their steps. I know this is because of the assistance they received from Love INC and our partnership with them."

Pastor Ricardo Johnson,

"Love INC has been wonderful. They have helped many in our church and those we have sent that have come to us needing help. They are able to work through and determine those people just seeking a handout and those who really need help. If you are thinking of joining Love INC, just DO IT. They love the people they serve."
